Thumbnail images are labelled by transect code, year, and photo number. Full size images with captions follow on subsequent pages.

GREN16\_1983\_5.9, Azim. 222: photo #1 of panorama of forest portion. Note large PIAL at top; rebar is beneath it at 0 m, then PIAL reproduction, large stone slabs, some TSME reproduction, and large TSME snag.

GREN16\_1993\_13.22

GREN16\_1983\_5.10, Azim. 208: Photo #2 of panorama of forest portion, slightly down-slope from photo 5.9.

GREN16\_1993\_13.23

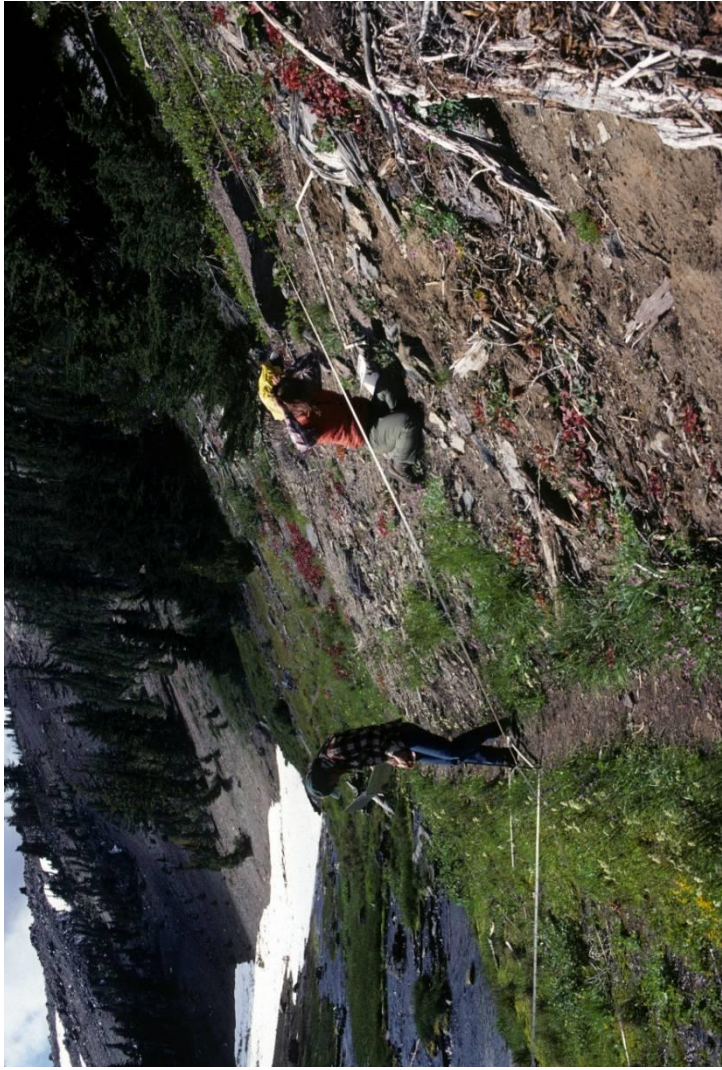

GREN16\_1983\_5.11, Azim. 176: PICO on the flat well beyond the stream channel with forest portion of transect to the R.

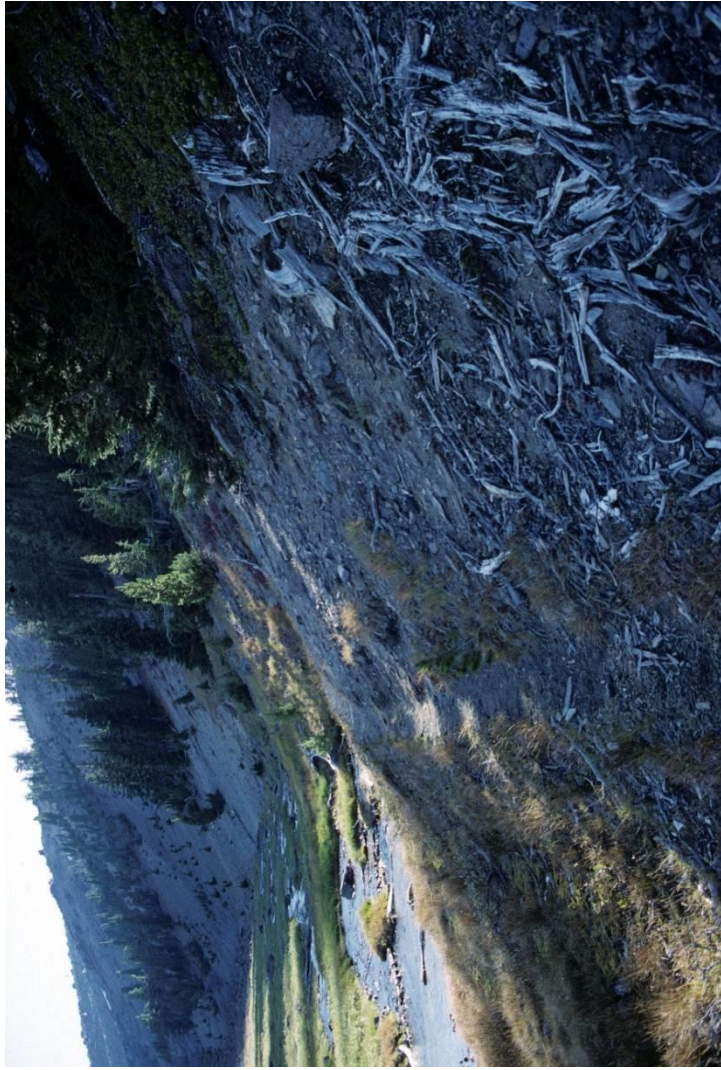

GREN16\_1993\_13.25

GREN16\_1983\_5.12, Azim. S: slope break showing plots being sampled where trail crosses the transect.

GREN16\_1993\_13.26

GREN16\_1983\_5.13, Azim. 320: from meter mark 73 up the transect line; note heather/CANI2 meadow with stream channel in the background (very dissimilar moss/stream-side community), then abrupt slope change up into forest; note snag on slope to the R.

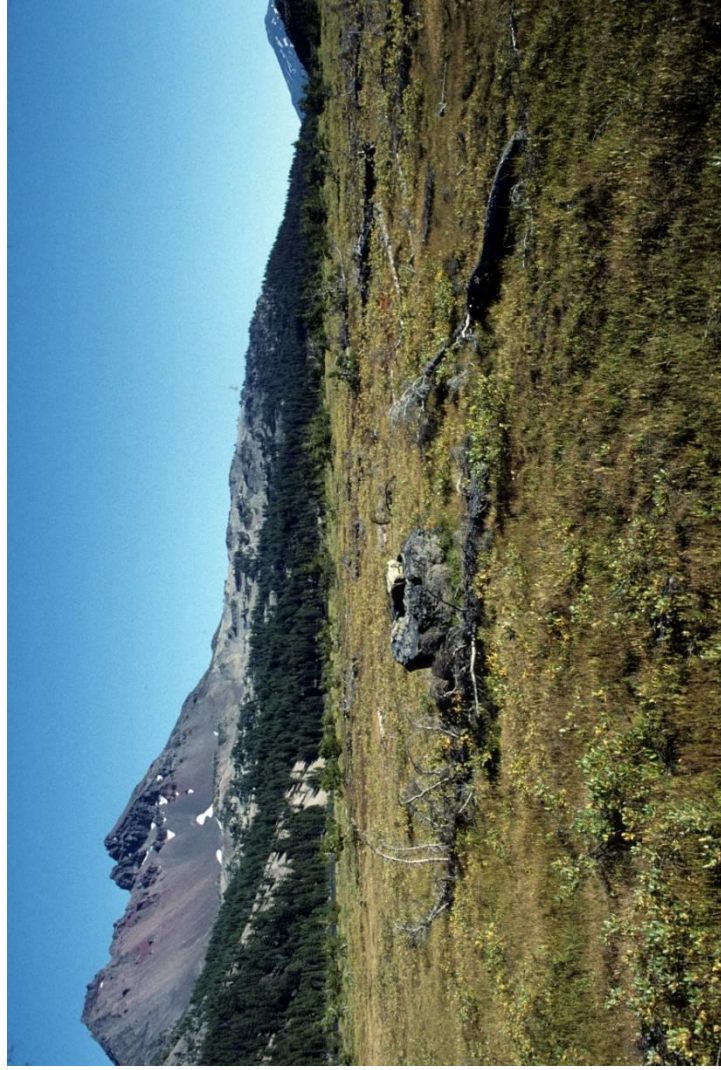

GREN16\_1993\_13.27

GREN16\_1983\_5.14, Azim. 140: from meter mark 100 to end of transect; note large boulder (@ 113 m), transect alignment, and PICO reproduction in distance; no reproduction until after 130 m mark

GREN16\_1993\_13.28, Azim. 140: note large new CWD near boulder.
