Thumbnail images are labelled by transect code, year, and photo number. Full size images with captions follow on subsequent pages.

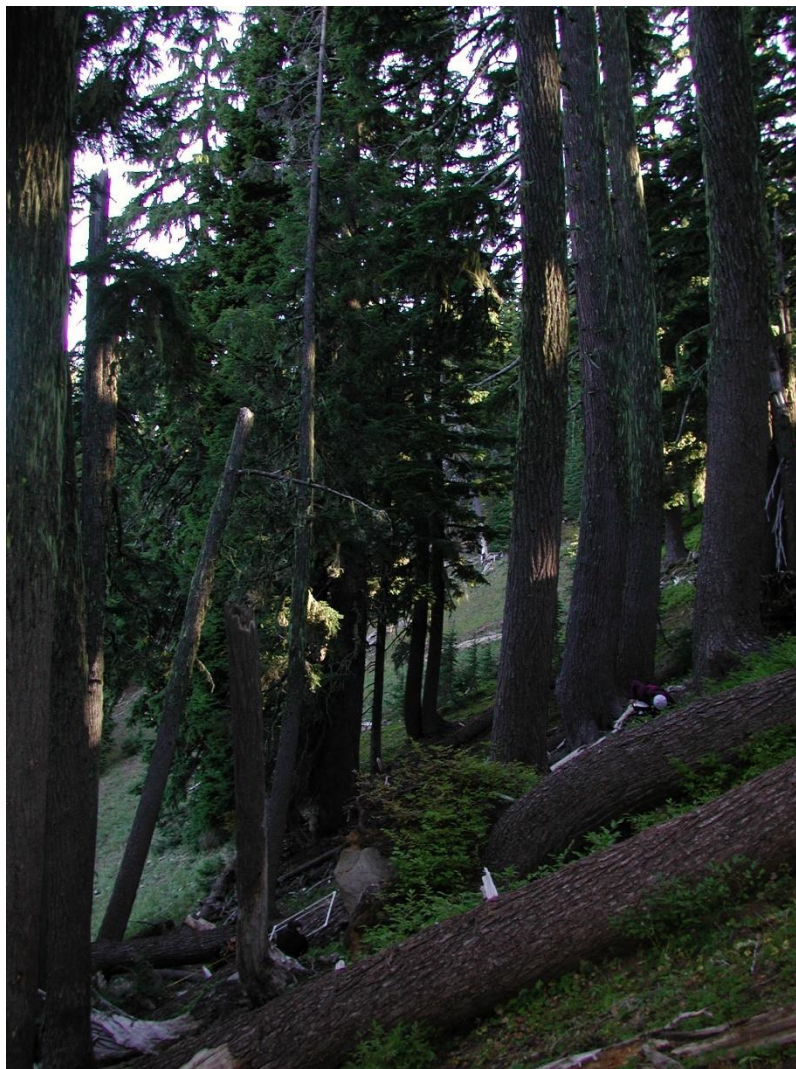

LINT18\_1983\_6.11, Azim. 14: ~30 m from meter tape across to #6912 (being cored); little reproduction.

LINT18\_1993\_6.9. See next page for 2009.

LINT18\_2009\_1799. Note wind-thrown trees.

LINT18\_1983\_6.12, Azim. 105: up transect line from pin #1 (@ 30 m). Note flasher on tree #6908, down logs, other tagged trees.

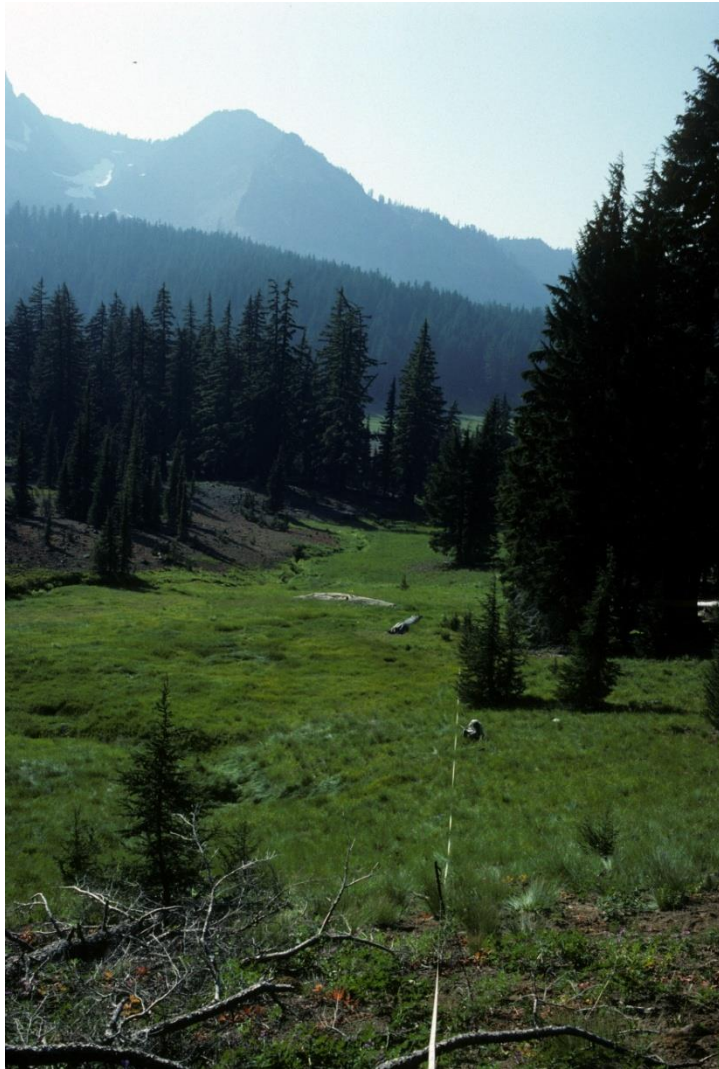

LINT18\_1993\_6.10. See next page for 2009.

LINT18\_2009\_1801. Note additional wind-thrown trees.

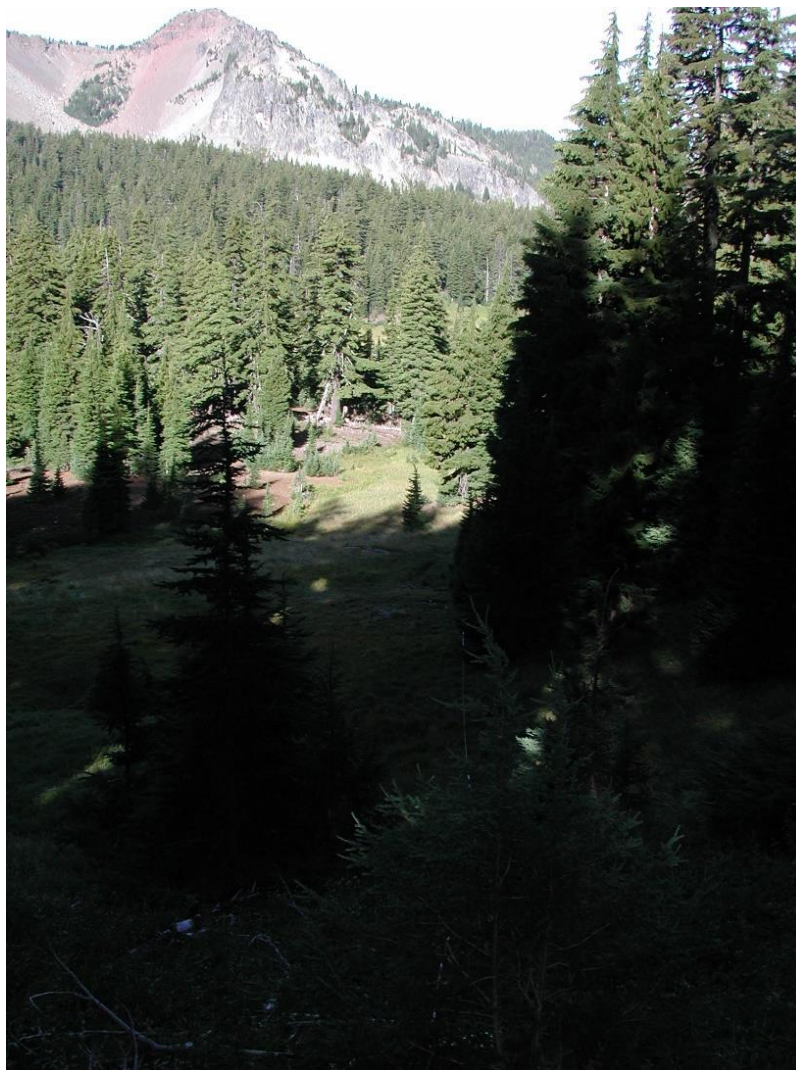

LINT18\_1983\_6.13, Azim. 285: from meter mark 33 down from pin #1 (@ 30 m) looking down the transect; PONE4/LULA through FEVI to CASP in drainage. Note invading trees from tree lobe to the R; pumice tree island off in distance to the L; main portion of Linton Meadow in the distance.

LINT18\_1993\_6.11, Azim. 285: no new invasion; fallen snag remnants missing or decayed; less snow on the Husband. See next page for 2009.

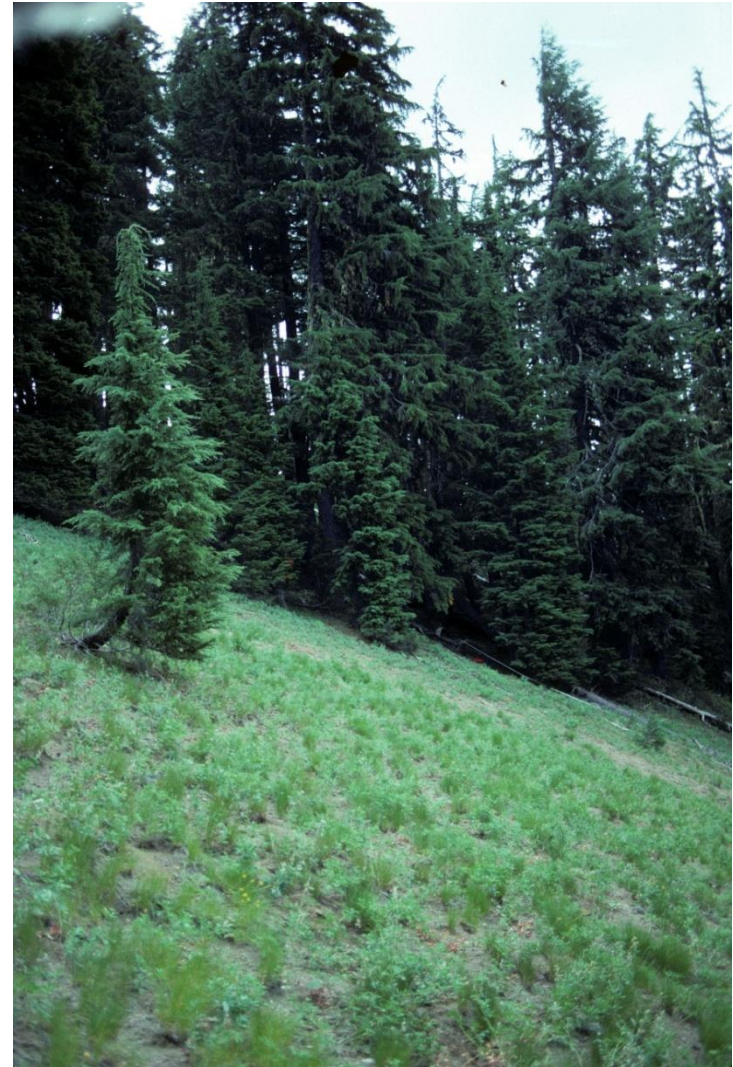

LINT18\_2009\_1807

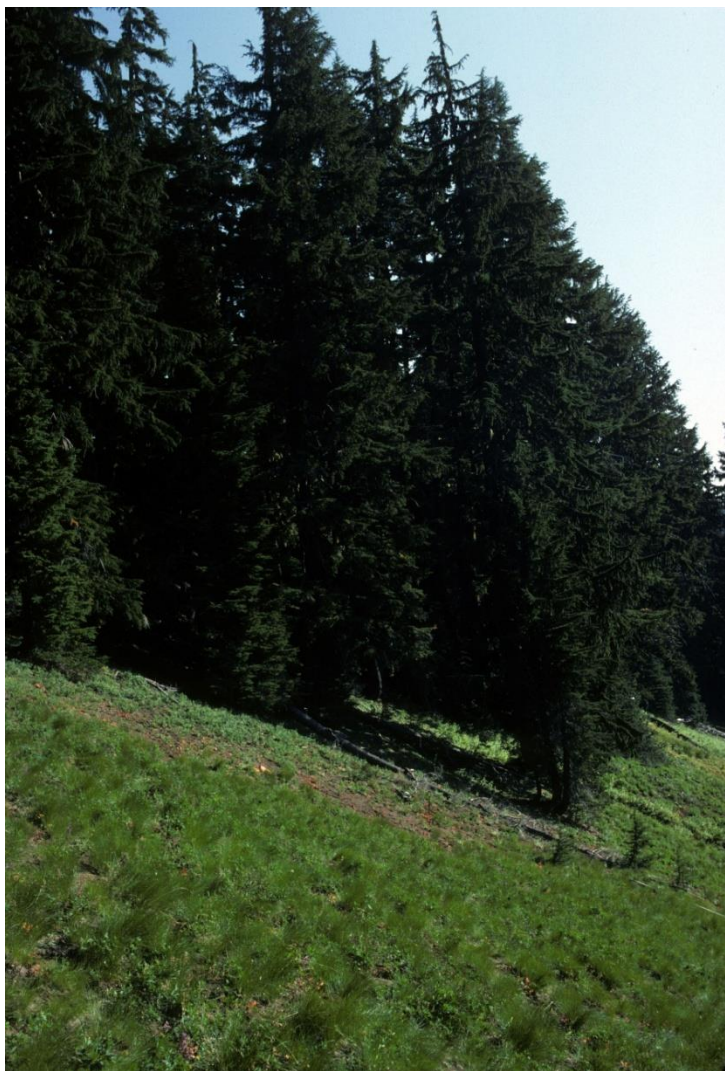

LINT18\_1983\_6.14, Azim. S: photo #1 of panorama of full transect. TSME forest with large individuals and small trees at edge; LULA-PONE4 grades to FEVI (where small invaders are) to FEVI-CASP, to pure CASP at the base of the slope.

LINT18\_1993\_6.12. No photo for 2009.

LINT18\_1983\_6.15, Azim. SW: Photo #2 of panorama of full transect (lower on the slope than in photo 6.14).

LINT18\_1993\_6.13. Further from transect than in 1983 photo. See next page for 2009.

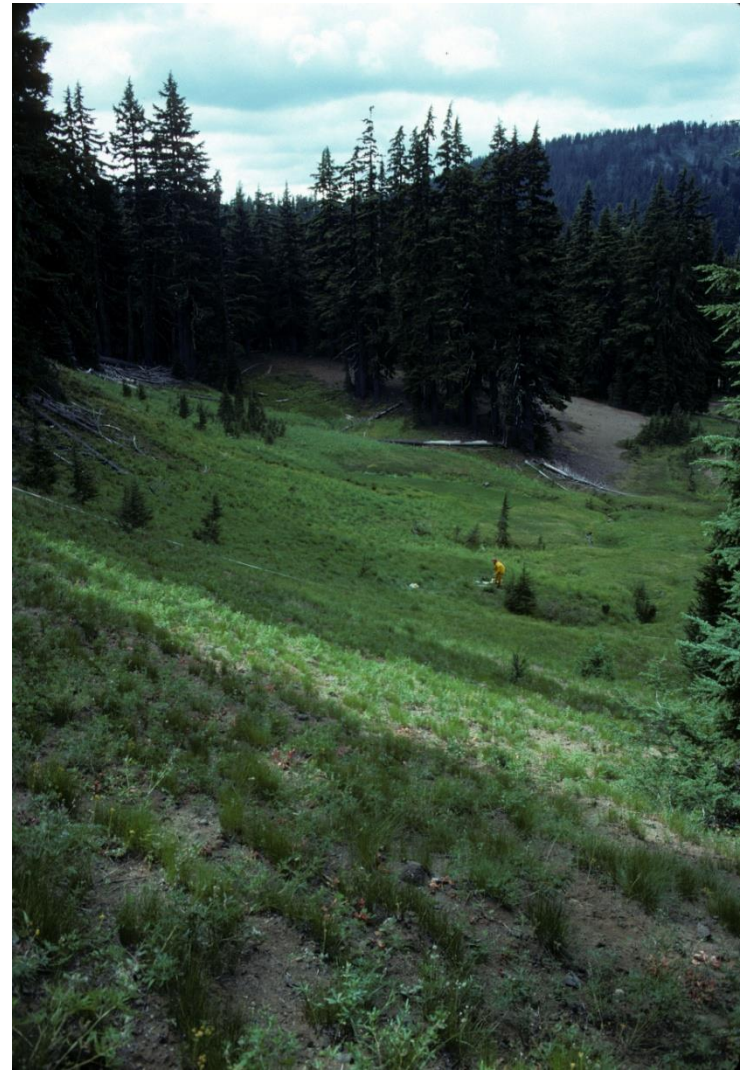

LINT18\_2009\_1813. Closer to transect than in 1983.

LINT18\_1983\_6.16, Azim. W: Photo #3 of panorama (portrait mode) lower on the slope than photo 6.15). Note stream channel in drainage with forby *Senecio triangularis* meadow in foreground.

LINT18\_1993\_6.14. See next page for 2009.

LINT18\_2009\_1820. Closer to transect than in 1983 or 1993.

LINT18\_1983\_6.17, Azim. W: Photo #3 of panorama (utin landscape mode). Note stream channel in drainage with forby *Senecio triangularis* meadow in foreground.

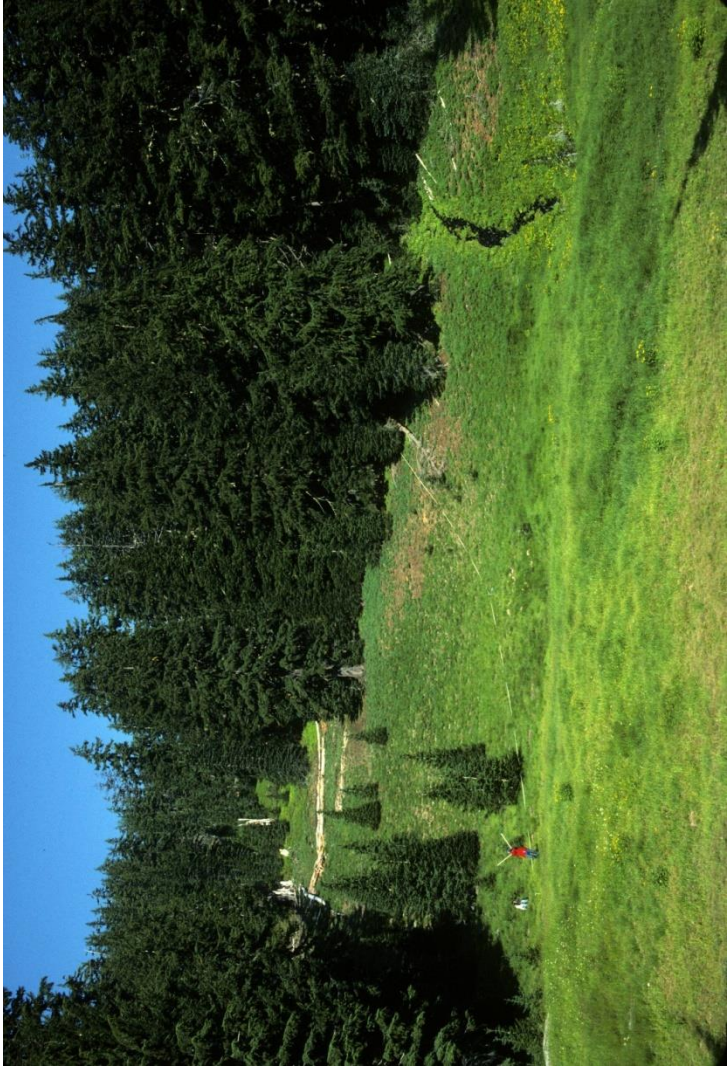

LINT18\_1993\_6.15. See next page for 2009.

LINT18\_2009\_1822

LINT18\_1983\_6.19, Azim. 75: from bottom of slope. Transect emerges from forest on R (near CWD), angles to lower L; note spring and stream to R; from upslope PONE4/LULA meadow grades to FEVI/LULA then to FEVI/CASP at the bottom

LINT18\_1993\_6.16. Further from transect (from on bare pumice island) than in 1983. See next page for 2009.

LINT18\_2009\_1826
