Thumbnail images are labelled by transect code, year, and photo number. Full size images with captions follow on subsequent pages.

LWDR1_1983_1.11, Azim. 40: from TSME #801 down the transect line, taken ~8 m from #801; small stand of TSME, uneven aged in center. This is the high point of Lowder Mt., mix of gaps and TSME reproduction.

LWDR1_1993_12.9

LWDR1_1983_1.12, Azim. 324: ~18 m from copper pin #1 @ 21 m oriented toward pin #1; sharp ecotone boundary with TSME reproduction to the R; trees to the L are #s 811 to 807 inwards to forest. Note snag has fallen in 1993 photo.

LWDR1_1993_12.10

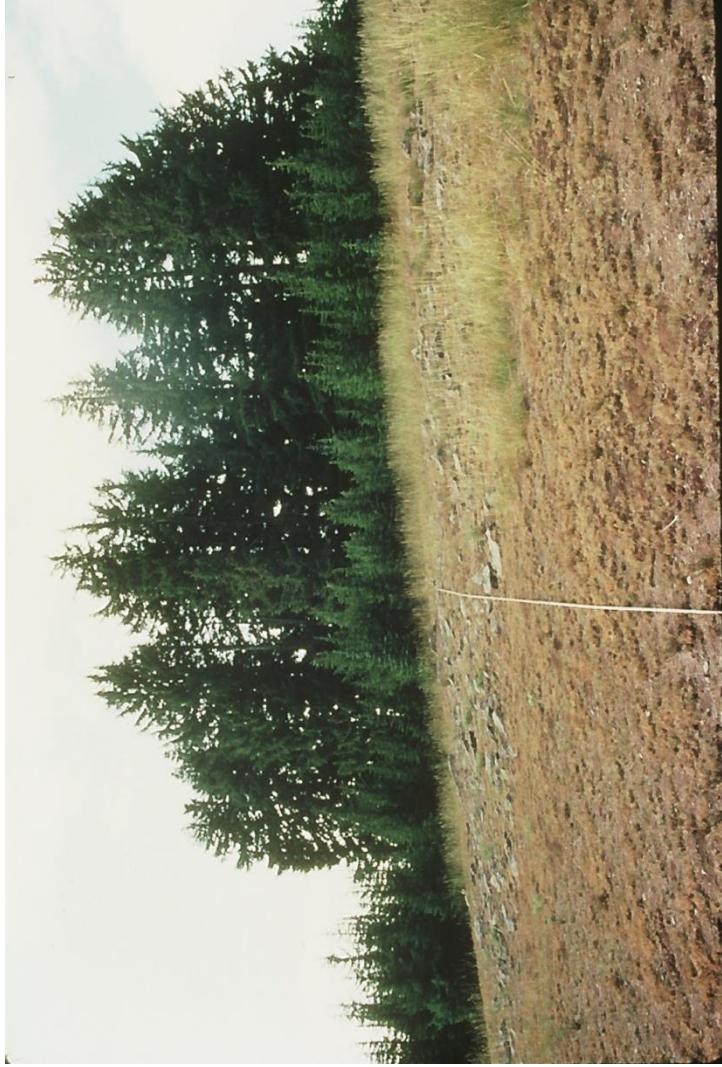

LWDR1_1983_1.13, Azim. 217: from pin #2 @50 m along ARCA2/STOC meadow to ecotone; note straight, even-aged front of TSME under abrupt forest edge. Note taller STOC in 1993 photo (late Sept).

LWDR1_1993_12.11

LWDR1_1983_1.14, Azim. 217: from pin #2 @ 50 m along ARCA2 to ARCA2/LULA to ARCA2/STOC to ecotone, same note as in photo 1.13.

LWDR1_1993_12.12. See next page for 2009.

LWDR1_2009_5

LWDR1_1983_1.15, Azim. 150: from W of transect across TSME ecotone; from FEVI/CASU6 meadow type to ARCA2/STOC; note dead ABLA2 in distance; location from which photo was taken may differ slightly for 1983 and 1993 photos; *Stipa* is also taller in 1993.

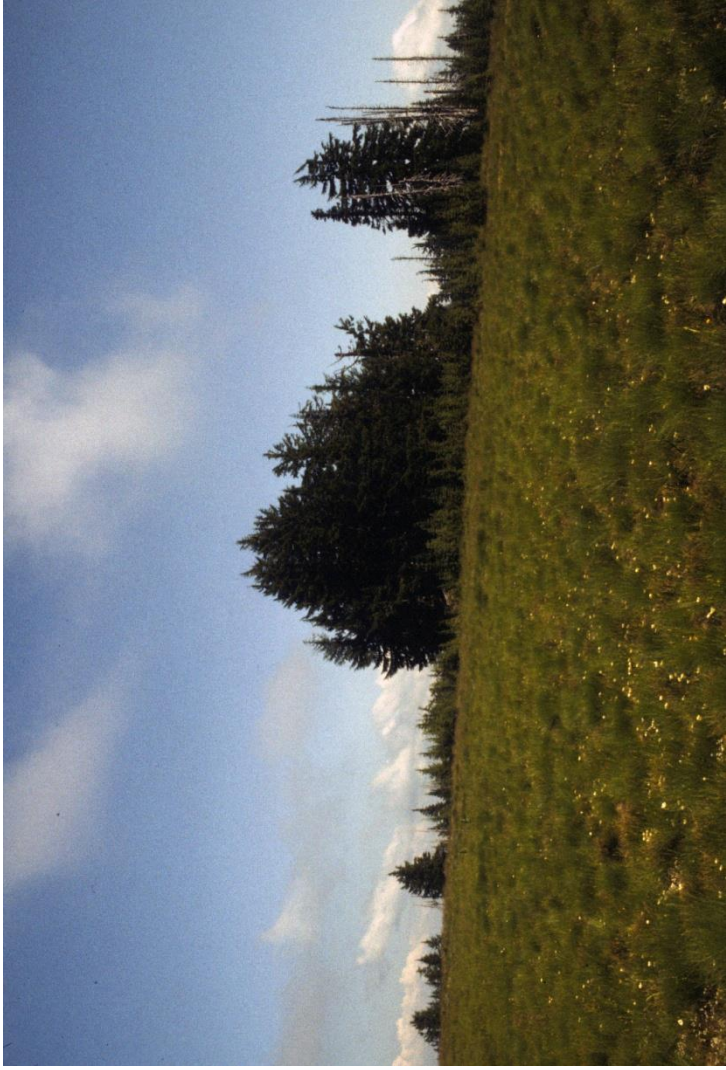

LWDR1_1993_12.14

LWDR1_1983_1.16, Azim. 5: relatively sharp break on Lowder Mt. where ARCA2 gives way to FEVI meadow type; the latter high in MIAL and CASU6; slope break from flat rocky (FEVI) to sloping less rocky ARCA2.

LWDR1_1993_12.17

LWDR1_1983_1.22, Azim. 130: from FEVI/CASU6 meadow near Walker Creek trail that descends down the N side of Lowder Mt.; view is back to high point (where transect 1 lies); TSME forest with invading TSME into FEVI meadow; note dead ABLA2 to R. Note difference in field of view for 1983 and 1993 photos

LWDR1_1993_12.18. See next page for 2009

LWDR1_2009_7

LWDR1_1993_12.13, Azim. 217: same as photo series 1983_1.14, 1993_12.12, 2009_5 but in portrait mode. From pin #2 @ 50 m along ARCA2/STOC meadow to ecotone. Note straight, even-aged front of TSME under abrupt forest edge. No 1983 or 2009 photo.
