

FUSION Gridmetrics Parameters
Cell size = 5 m
Mean height for all elevations
First returns

Height Above
Ground (m)

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010
Universal Transverse Mercator, zone 10, NAD83

FUSION Gridmetrics Parameters
Cell size = 5 m
Mean height for elevations >2 m
First returns

Height Above
Ground (m)

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010
Universal Transverse Mercator, zone 10, NAD83

FUSION Gridmetrics Parameters
Cell size = 5 m
75th percentile for all elevations
First returns

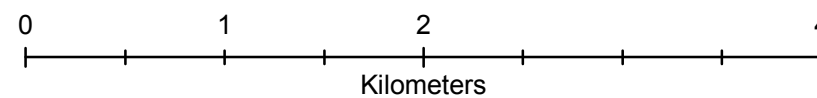

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010
Universal Transverse Mercator, zone 10, NAD83

FUSION Gridmetrics Parameters
Cell size = 5 m
95th percentile for all elevations
First returns
