FUSION Gridmetrics Parameters
Cell size = 5 m
Mean height for all elevations
First returns

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010
Universal Transverse Mercator, zone 10, NAD83
FUSION Gridmetrics Parameters
Cell size = 5 m
Mean height for elevations >2 m
First returns

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010
Universal Transverse Mercator, zone 10, NAD83
FUSION Gridmetrics Parameters
Cell size = 5 m
95th percentile for all elevations
First returns

Processed from HJA Lidar flown in August 2008
Keith Olsen - 3 February 2010

Universal Transverse Mercator, zone 10, NAD83
