

Contents and definitions of codes used in DEMO fieldsheet list

Column heading	Contents and definitions of codes
Block	Experimental block number (see below)
File name	File name consisting of data-form type*, block number, treatment number, year of sampling
Date last modified	Date last modified
Time last modified	Time of day last modified
File size	File size in MB
Comment	Additional notes about file contents
	<i>*Data-form type: file names with "O-" contain overstory data; file names with "U-" contain understory data</i>
	O-A = Overstory trees: pre- (1994-1996) and early post-treatment (1998-1999)
	O-B = Snags: pre- (1994-1996) and early post-treatment (1998-2001)
	O-C = Tree heights: pre- (1994-1996) and post-treatment (1999-2009, not 2016)
	O-D = Overstory trees: mortality events (1999-2016)
	O-E = Overstory trees: post-treatment (2003-2016, includes 2016 tree heights)
	O-E (cont.) = Overstory trees: continuation form for comments and replacement height trees (2016)
	O-F = Snags: post-treatment recruitment (2003) and remeasurement (2003-2016)
	O-F2 = Snags: post-treatment recruitment (2009-2016)
	O-G = ingrowth overstory trees (2003-2016)
	U-A = Physical site conditions, transect end-point positions, plot notes/comments, grid re-assessment notes, pre-treatment moosehorn densiometer data (all pre- and post-treatment years)
	U-B = Herbs, bryophytes: pre-treatment (1994-1996)
	U-B1 = Bryophyte species presence, substrate affinity, total cover: early post-treatment (1998/1999)
	U-B2 = Herb species presence/absence: early post-treatment in cut plots (1998-2000)
	U-B3 = Herb species presence/absence and cover: early post-treatment in uncut plots (1998-2000)
	U-C = Ground-surface conditions: pre- (1994-1996) and post-treatment (1998-2009)
	U-D = Shrub species cover and height: pre- (1994-1996) and post-treatment (1998-2009)
	U-E = Coarse woody debris: pre- (1994-1996) and post-treatment (1998-2009)
	U-F = Natural regeneration: density pre- (1994-1996) and early post-treatment (1998-2000)
	U-F2 = Natural regeneration: density mid- to late post-treatment (2003-2016)
	U-F3 = Natural regeneration: height and reconstructed leader growth, Blocks 1 and 7 only (2003)
	U-G = Planted trees: initial measurement (1998-2000)
	U-G2 = Planted trees: re-measurement and mortality (1999-2009)
	U-H = Overstory canopy cover: convex "truck-mirror" densiometer: pre- (1997) and early post-treatment (1998-2000)
	U-I = Disturbance assessment (stumps and skid roads): prior to treatment (1994-1997)
	U-I1,2 = Disturbance assessment (ground disturbance, slash cover, slash depth): post-treatment (1998-2000)
	U-J = Tree fall or stem breakage: pre-treatment (1994-1996)
	P-1 = Grid point reestablishment data: distance and bearing to reference trees/stumps
Block number	BLK1 = Watson Falls (OR) BLK4 = Dog Prairie (OR) BLK5 = Butte (WA) BLK6 = Little White Salmon (WA) BLK7 = Paradise Hills (WA) BLK8 = Capitol Forest (WA)
Treatment number	TRT1 = 100%, 100% retention (control) TRT2 = 75%A, 75% aggregated retention TRT3 = 40%D, 40% dispersed retention TRT4 = 40%A, 40% aggregated retention TRT5 = 15%D, 15% dispersed retention TRT6 = 15%A, 15% aggregated retention
