## H.J. ANDREWS EXPERIMENTAL FOREST

# CONFERENCE & EDUCATION FACILITIES

United States Department of Agriculture

Forest Service

Pacific Northwest Research Station

## INTRODUCTION

**T**he H.J. Andrews Experimental Forest is located in the central Cascade Range of Oregon about 50 miles (80 km) east of Eugene, and 1¼ hours from the Eugene airport. The experimental forest occupies 15,700 acres (6354 ha) and ranges from 1,400 to 5,400 feet (427 to 1646 m) in elevation.

## FACILITIES

The Andrews Experimental Forest headquarters contains offices, a cafeteria, conference rooms, labs, and housing that support the field-oriented research program. Recently completed facilities have increased year-round site capacity to 80 people. From October to May, when facility use is well below capacity, the headquarters facilities are available for a variety of group functions: conferences, short courses, workshops, overnight field trips, planning sessions, retreats, etc. While priority is given to publicly affiliated organizations, use by private natural resource, science, and education organizations is also welcome.

Available facilities include a large conference/lecture hall, a smaller library/conference room, a catering cafeteria, an outdoor covered pavilion area, three small labs, a large teaching laboratory, and 10 apartments. During peak summer months, there are also primitive camping facilities at the nearby Gypsy Camp (picnic tables, outhouses, and small four-walled shelters).

▲ The large conference/lecture hall can accommodate approximately 100 in row seating or 50 to 60 at tables. The library/conference room can accommodate 20 people. Traditional slide, overhead, and

computer projectors are available for both conference rooms.

- ▲ The cafeteria seats about 80 and is fully equipped with state-of-the-art kitchen equipment. A list of potential caterers is available from the facilities manager.
- ▲ The large teaching laboratory seats 25 to 30 students at benches equipped with computer hookups.

*McRae Cafeteria*

*Conference/  
lecture hall*

- ▲ All apartments have a fully equipped kitchen and a living room/dining area. Most apartments have two bathrooms and four bedrooms with two single beds in each, accommodating eight people.
- ▲ The pavilion is a covered outdoor structure with a concrete slab floor and can be used for a wide range of functions, weather permitting. Tables, folding chairs, and barbeque grills are available.

## RECREATIONAL ACTIVITIES

As part of the Willamette National Forest, the Andrews offers a wealth of nearby recreational opportunities including Blue River Reservoir, the McKenzie River, the Lookout Creek Old-Growth Trail, and two scenic byways – Aufderheide Drive and the McKenzie Pass/Santiam Pass.

*Small  
laboratory*

*Art McKee Teaching Laboratory*
