

HJ Andrews Long Term Ecological Research Fifth Annual Symposium

New Adventures in LTER Science: Transitioning from spatial to temporal studies

Thursday, October 10, 2002
OSU campus

AM session – Room 206, Memorial Union

Refreshments available beginning at 8:30

8:50 Welcome and introductions

Sherri Johnson, PNW Research Station, USFS

9:05 Small Watershed Studies: Enhancing eco-hydrological linkages

Jeff McDonnell, Forest Engineering, OSU

9:35 The Balancing Act: Seeking a rigorous synthetic method for long-term studies

Mark Harmon, Forest Science, OSU

10:15 Break

10:30 Temporal Behaviors: Examining lags and coherence in stream dynamics

Stan Gregory, Fisheries and Wildlife, OSU

11:00 Connecting Landscapes: New lessons from networks

Julia Jones, Geosciences, OSU

11:30 Interface of Science and Policy: Changing conflict, changing contributions

Fred Swanson, PNW Research Station, USFS

12:00 Lunch – Union Ballroom, West

(There is no fee but registration is required – please contact TLowry@fs.fed.us)

Afternoon session

1:30 – 3:30 Posters - Union Ballroom

Recent findings and current research
