

# Histories of Ideas in Ecological Research at the Andrews Forest

**Eighth Annual Symposium  
Andrews Forest Long-Term Ecological Research (LTER)**

**Wednesday, February 8, 2006  
Memorial Union, OSU campus**

**AM session – Memorial Union Leadership Center (east end of first floor)**

**9:00 Welcome and introductions-** Barbara Bond, Forest Science Department, OSU

**9:05 History of ideas about small watershed research**

Julia Jones, Geosciences Department, OSU

9:25 *Discussion*

**9:40 History of ideas about forest-stream interactions**

Sherri Johnson, PNW Research Station, USFS

10:00 *Discussion*

10:15-10:35 Break

**10:35 History of ideas about stream ecology**

Stan Gregory, Fisheries and Wildlife Department, OSU

10:55 *Discussion*

**11:10 History of ideas about forest ecosystem structure and dynamics**

Jerry Franklin, College of Forest Resources, UW

11:30 *Discussion*

**11:45 Wrapup - Research history at Andrews Forest: Evolution or intelligent design?**

Fred Swanson, PNW Research Station, USFS

**Afternoon session – Memorial Union Room 109**

**12:00 Lunch**

*(There is no fee but registration is required)*

**1:00 – 3:30 Posters: Recent findings and current research**

*Open poster session for research from Andrews Forest Program*
